

ALL-NATURAL PATENTED CO₂ TECHNOLOGY FORMULATOR
OMRI Organic, FDA, USDA Approved

MOXIYO PRODUCT INFORMATION USAGE

- **Moxiyo 2 Gram Packets** are sealed in a clear air-barrier bag. When ready to use, open the barrier bag.
- You have 24 hours to place with your products.
- If all packets are not used, they can be resealed in an air barrier bag until ready to be used.
- Each packet is 1.25" X 2" inches.
- The packets have a 6-month shelf life when sealed in the original barrier bag and stored in temperatures below 65 degrees F.

- **Moxiyo Air Daddi Units** are individually sealed in a clear air-barrier bag.
- Each bag has a grommet and hook for ease in hanging. Place units up high and close to blowers.
- By placing by the blower units, the air will circulate CO₂ within refrigerated units.
- Massage the units occasionally so they remain granular.
- Each Air Daddi bag is 10"X 4" inches and weighs 1 pound.
- Air Daddi will continue to work up to 60 days.

- **Moxiyo GemFresh** has multiple uses keeping the end users in mind.
- From customized packaging solutions for the transportation of the **Ready To Eat and Meal Kit Markets**, to the in-home consumer use for household refrigerators and freezers. It will keep foods fresher including: fruits, vegetables, milk, cheese, yogurt, fresh meats, and deli meats.
- Each GemFresh Pack is 6"X 3" inches and weighs ½ pound.
- It will last up to 90 days in a household refrigerator.
